نبذة عن مركز البحوث والدراسات الصينية المصرية

عرض تقديمي
د. ياسر جاد الله
Historical Background

✓ Chinese-Egyptian Research Center has been established in 2009 as a first joint scientific research center between Egypt and China in order to enhance the ties and relationships between the two countries.

✓ It entered into force based on a number of agreements Between Helwan University in Egypt and Shanxi, Chongqing technology and Jinzhong Universities in China.

Units of the Center

1- Economics and International Trade Unit.
2- Small and Medium-Sized Enterprises Unit.
3- Technology and Industry Projects Unit.
4- Linguistic and Civilization Unit.
5- Social and Law Studies Unit.
6- Intellectual Property and Innovation Unit.
Vision

Our Center is a well-international expertise center in Chinese-Egyptian studies and exchanging the experiences in economics, international trade, technology, fine and applied Arts and industry Fields.

Mission

Enhancing the cooperation and partnerships between China and Egypt via preparing a joint research in economics, trade and technology in addition to a joint organizing of international conferences, seminars and workshops in the center’s fields.
Objectives of the Center

The center aims to support the different channels and forms of collaboration to establish a successful Chinese-Egyptian partnership according to the joint benefit and bilateral cooperation through:

- Enhancing the technological development and innovation between two countries and maximizing the benefits from the Chinese experience to establish a technological base for production to raise the competitiveness capabilities in international markets.

- Providing SMEs with the technical support and incubating some of them to overcome the marketing, finance, technical and managerial difficulties which faced by them. It can be done via the joint coordination between the different institutions in two countries such as the social development fund in Egypt.
Objectives of the Center

- Undertaking the feasibility studies for business and industry for different projects and providing the private sector with technical consultations.
- Capacity building for the employees in industry, technology, trade, project management and finance considering the new curricula in this affair at the international level based on the domestic market needs.
- Studying the problems and difficulties in foreign trade sector in each of China and Egypt and proposing some innovative solutions.
- Publishing the main important research and studies in China and Egypt considering the center’s fields. In this affair, our center launched the first scientific Journal in Chinese-Egyptian Research by 2012.
- Proposing some joint educational academic and professional programs in international trade and economics.
